¹ WXGA Resolution - 720 HDTV signals are scaled to fit the 768 display. More than 94% of the 720 signal is scaled to the display. Due to variances in program productions and transmissions not all of the 720 signal is suitable for display.

² This television is capable of receiving over the air digital and analog signals (ATSC and NTSC). Analog cable channels that are not scrambled may also be received. Digital cable tuning is not supported (QAM).

³ DVI-HDTV (HDCP) input is compatible with the digital RGB video portion of HDMI signals (adapter not included).
