

TOSHIBA

42HM66

42" (measured diagonally)
INTEGRATED 720p DLP®

KEY FEATURES

VIDEO

- Texas Instruments 5th Generation DLP® Chip
- 3DYC Digital Comb Filter
- 135 Watt Lamp

AUDIO

- 20 Watt Audio Output
- Bass and Treble Controls

CONVENIENCE

- ATSC/QAM Digital TV tuning (with NTSC Analog Tuning)
- HDMI™ Digital Input
- Dual ColorStream® Component Video Inputs
- MPEG Noise Reduction
- Less than 40" Wide

ADVANTAGE TOSHIBA

ATSC/NTSC Digital TV tuning enables the set to receive digital cable-in-the-clear signals, as well as digital terrestrial broadcasts.

HDMI™ Digital Input provides uncompressed digital video and digital audio in one convenient cable for connection from home theater components.

PRELIMINARY SPECIFICATIONS SUBJECT TO CHANGE

42HM66

TECHNOLOGY & BENEFITS

VIDEO

5th Generation DLP® - Incorporates 5th generation DLP technology from Texas Instruments for our best 720p picture yet.

AUDIO

New Two-Tone Bottom Speaker Cabinet Design - New sleek design looks great, yet gives wide a 16:9 42" HDTV with a smaller footprint than a conventional, analog 36" picture tube set, allowing a fit into many of today's armoires (<40" wide).

StableSound® - Reduces unwanted volume fluctuations (eg. during commercials) by keeping volume within set levels, for easier listening.

Surround Sound - Improves audio performance by increasing the sound stage for the viewer.

CONVENIENCE

HDMI™ Digital Input - Includes both uncompressed digital video and digital audio in one convenient cable for connections from today's best home theater components.

4-Item Universal Remote - This universal remote will operate many home theater components.

¹In some cases, the remote control may not operate additional devices or certain features of such devices, in which case, it is suggested that you use the original remote control for the applicable device.
