ADVANCED TRUE WIDE VIEWING ANGLE

True 178° viewing angle with consistent contrast and color - even while viewing at the most extreme angles.

SUPER IPS TECHNOLOGY

Reduces common distortion and blurring caused by fast motion video and also provides one of the industry's widest viewing angles (178°).

LG SIMPLINK

Allows for convenient control of other LG Simplink products using the existing HDMI connection.

LG'S EXCLUSIVE XD ENGINE™

Six distinct processes contribute to picture improvement. LG's XD Engine™ takes the low resolution of analog signals to near HD levels by improving brightness, contrast, detail and enhancing color as well as reducing signal noise. This total solution results in cinema-like high resolution images.
