<sup>1</sup> More than 94% of the 720 signal is displayed. Due to variances in program productions and transmissions not all of the 720 signal is suitable for display.

<sup>2</sup> This digital television is capable of receiving basic analog, digital basic and digital premium cable television programming by direct connection to a cable system providing such programming. A security card (CableCARD) provided by your cable operator is required to view encrypted digital programming. Certain advanced interactive digital cable services may require the use of a set top box: video-on-demand, cable operator enhanced program guide, data enhanced television service. For more information contact your local cable operator.

<sup>3</sup> USB adapter and memory cards are not included.

<sup>4</sup> HDMI inputs are compatible with DVI-HDTV (HDCP) signals when combined with an adapter cable. Adapter cable is not included.
