Is it a TV? Or something better?

The ultimate in LG plasma displays is now available with the INFINIA PK950. Truly a marvel in plasma display design, it offers groundbreaking design elements, smart innovations like the anti-glare TruBlack Filter, THX certification and NetCast Entertainment Access. Imagine anything you might want in a plasma display and it's been made a reality with the PK950.

INFINIA™

New definition television. LG's INFINIA TVs are redefining home entertainment. Even beyond their jaw-dropping design, they offer access to virtually unlimited entertainment through broadband connectivity and freedom with wireless HD capability.

TruBlack FILTER

The new black. Don't let the lamp in the corner keep you from seeing what's going on in the movie. LG's TruBlack Filter helps block glare while boosting images on the screen to improve picture quality and contrast ratio.

THX DISPLAY

You don't have to take our word for it that this is an amazing TV. To earn THX certification, our TV's passed more than 30 rigorous tests, ensuring you're bringing an uncompromised HD experience home - as the director wanted it.
