

727 Series

1080p DLP™ HDTV

Model:
WD-73727

Overview

The WD-73727 combines a high-output 150 Watt lamp and the latest 1080p DLP™ chip to produce a big, bright, and bold picture with unsurpassed detail.

The all-new Mitsubishi digital light engine features Dark Detailer™ for deep blacks and rich dark scene detail. Mitsubishi uses a high speed video processor called Plush1080p™ that upconverts 1080i signals to 1080p producing four times the resolution of traditional line doublers. The DeepField™ imager dynamically optimizes brightness and contrast within every scene, while SharpEdge™ provides clean, focused edges between objects and scene backgrounds. The result is a stunning picture.

With Mitsubishi ClearThought™ technology, digital TV becomes easy to use. The WD-73727 offers a Digital Cable Ready HDTV tuner with CableCARD™ slot, two HDMI™ digital inputs and a multi-format memory card reader for viewing digital photos and portable digital audio playback.

Get the Perfect Picture Every Time

- Digital Cable Ready HDTV with CableCARD™ Slot
- Mitsubishi Exclusive 1080p DLP™ Light Engine
- Dark Detailer™
- Plush1080p™
- PerfectColor™
- SharpEdge™ (switchable)
- DeepField™ Imager (switchable)
- High Output 150 Watt Lamp

Watch TV Your Way

- 2 HDMI™ Inputs
- 3 Component Inputs
- Multi-Format Memory Card Reader
- Front IEEE 1394 with DV Decoder
- All-Digital Audio Output
- TV Guide On Screen®
- NetCommand® 5.0
- Fully Illuminated Remote Control
