WEATHERPROOF LCD MONITOR

SANYO has used all of its expertise in creating a lightweight aluminum framed LCD monitor, which is protected by anti reflected tempered glass. Newly integrated Transflective panel is the perfect solution for outside under the sun light. **Its brightness is up to 1500 (cd/m² for panel) with ideal condition under daylight.**

This means that the SANYO weather proof monitor can be used in a wide variety of environments due to it being fully approved **IP66** weather-resistant and under daylight situation. The SANYO weatherproof LCD will make the ideal display for Out-door Digital signage.
