

Lay back and enjoy as this seamless sheet of glass becomes the centerpiece of your living space. Featuring truly transcendent picture quality, each scene in everything you watch—HD movies, 3D, sports, even YouTube™ clips—is presented with unprecedented detail and astonishing color from Sony's exclusive X-Reality™ PRO picture engine. Ultra-clear, realistic motion during slow scenic sweeps and fast action sports comes courtesy of Motionflow™ XR 960.

Bullets

- Pro-grade detail for discerning eyes: X-Reality™ PRO
 - Experience precise motion clarity w/ Motionflow™ XR 960
 - Frameless design with Corning's Gorilla® Glass
 - Movies, music & apps w/ Sony Entertainment Network¹
 - Amazingly crisp, natural 3D effects in every 3D scene²
 - Dynamic Edge LED backlight for amazing contrast & color
 - Stream HD entertainment wirelessly with built-in Wi-Fi®¹
 - PC and tablet content³ on your TV w/ Intelligent Connect
 - Make life-sized video calls with Skype®¹
 - Media Remote™ app to control your TV with a smartphone⁴
 - Connect to the TV via Wi-Fi® without using a router³
-

Features

Everything looks better.

This is picture quality so lifelike it's like looking through a window. Each scene in everything you watch—HD movies, sports, even YouTube™ clips and home movies—is presented with unprecedented detail, and astonishing color as Sony's exclusive X-Reality™ PRO picture engine draws on its database of real patterns, shapes and textures to display our most lifelike picture ever.

Our clearest picture ever.

When you watch a kickoff at the stadium, the ball doesn't blur from left to right. Recreating natural motion with reduced judder and less blur, Motionflow™ XR 960 technology helps you see each end-over-end rotation by taking motion clarity beyond refresh rates, which are only measured in Hz, to quadruple the motion effect so you see everything as if you were there.

Tough, yet beautiful.

Only Sony has it.⁷ Corning's exclusive Gorilla® Glass lets you enjoy an incredibly durable, remarkably lightweight, frameless design with a seamless, sophisticated look. Paired with the OptiContrast™ panel, Gorilla Glass helps boost contrast and brightness while minimizing unwanted light reflections.

Go way beyond cable.

Welcome to the endless entertainment of the Sony Entertainment Network, where thousands of movies, TV shows, online videos, games and music are always at your fingertips. By connecting to the Internet you can access Full HD 1080p entertainment, 3D content² and made-for-TV apps like Netflix®, Pandora®, YouTube™, Facebook® and more.¹

Natural 3D effects.

Feel like you're standing alongside your favorite actor as the environment envelops you with lush 3D detail.² Ultra-realistic effects are achieved by X-Reality™ PRO 3D Super Resolution, optimizing each area of the 3D scene by drawing on its database of patterns, shapes and textures.

The difference is dynamic.

It's all about perfecting a natural look. Dynamic Edge LED backlighting with local dimming delivers pitch-black night scenes and illuminates bright scenes that pop with vibrant color. Rather than illuminating the entire screen, contrast is boosted in just the right areas for a more realistic picture.

In-your-face action.

Brace yourself for pure 3D excitement that feels like you're standing on the 50-yard line. Through advanced Active 3D technology, immerse yourself in Full HD 1080p clarity and phenomenal 3D picture quality. Just slide on the comfortable 3D active glasses and enter a whole new dimension.²

Goodbye wires, hello built-in Wi-Fi®.

Maximize your entertainment while reducing cable clutter. Wirelessly stream beautiful, HD entertainment straight from the internet or your home network using built-in Wi-Fi® connectivity.¹

All devices, together as one.

Don't all of your personal photos and videos deserve the big screen? Experience your content on a grand scale simply by connecting your compatible smartphone, computer or Sony Tablet™ S via your existing Wi-Fi® network. Then you can easily "throw" your videos, photos and music files to your HDTV.³

Life-sized video calls.

It's like they're in the room with you. Skype® video calls bring your family and friends closer than ever as they appear as large as life on your big screen—for free.¹ Just connect the easy-to-use Skype camera (sold separately) for a face-to-face look at the caller on the beauty of your Sony HDTV.

Control your TV with your phone.

Now there's one less remote control on the coffee table. Just download the free Media Remote™ app and turn your iPhone®, Android™ phone or Sony Tablet™ S into a versatile remote control with a full QWERTY keyboard⁴. It makes changing channels and typing searches ultra fast and convenient.

Wi-Fi® without a router.

Sometimes your friends want to share their personal photos and videos on your beautiful HDTV. With Sony's Wi-Fi Direct Mode, your friends can throw personal content to your TV without connecting to your home network. Wi-Fi Direct completely bypasses the Wi-Fi access point/router, so it's easy to set up.³

A sense for songs.

What's that song in the TV show, movie or commercial you're watching? Press 'TrackID' on your remote and get the song name and artist instantly.⁵ You can also start the TrackID® service by shaking a smartphone that's running the Media Remote™ app.⁴ Very convenient.

Save power, save money.

Enjoy lower energy bills with reduced power consumption of up to 30% while maintaining beautiful image quality with Eco Drive technology. It automatically reduces power consumption while boosting color and detail on the screen and conserving energy used by the backlight.⁶

Handheld gaming goes big.

Play your PSP® system or other handheld gaming consoles (with SD output) on your HDTV with no irritating black borders surrounding the picture. Just select Game Mode for an ideal fit to your TV screen according to the input. Better yet, Super Resolution Processing delivers a clear, crisp view in HD size.

Onboard manual.

You will never lose your TV manual again. The iManual is available through the menu system on the TV – always there if you need it.

Find it fast.

Searching for shows and music on your TV is so simple. Just press 'GUIDE' on your remote and see what's on and what's coming up with a handy image to go with it. You also get an episode synopsis, cast and crew details and suggestions to related shows, on-demand movies and Blu-ray Disc™ titles.⁷

Finding music is also a cinch. Music Search with the TrackID® button cleverly recognizes the melody of the music playing on your TV. Want to go further? Search to find more songs by the same artist and other related web content. Share your discovery with the world via Twitter™.⁷
