MITSUBISHI ELECTRIC
LASERVUE
EXPERIENCE CINEMA COLOR

Cabinet Color: Platinum Black

THREE DIMENSIONAL CINEMA COLOR

Mitsubishi revolutionizes large screen television with groundbreaking Laser Technology. LaserVue® Laser TV sets the new standard for large screen television by delivering pure, cinema-like color at a fraction of the operating power consumption of similarly-sized flat panel TVs. LaserVue® harnesses the power of the world's purest light source to deliver up to two times the color of many of today's flat panel TVs. Laser beams provide an extensive range of rich, complex colors, truly distinct clarity, and immersive depth of field.

It's the ultimate in picture quality, rivaling the amazing color viewed in the most advanced digital cinemas. Breakthrough laser technology creates an eco-friendly portal to a multi-dimensional, intensely real and vivid world. Beyond flat TV, experience True Dimension™. Mitsubishi LaserVue® TV. The Ultimate Large Screen 3D Experience!

Mitsubishi 3D TVs will support the mandatory HDMI 1.4a 3D signals and a few optional 3D signals intended for the United States. Specifically, the TVs will support 3D signals known as Frame Packing 1080p @ 24Hz and 720p @ 60Hz (primarily from Blu-ray players and gaming consoles), Side-by-side in 1080i @ 60Hz, 1080p @ 24Hz, 30Hz, 60Hz and 720p @ 60Hz, Top/Bottom in 1080p @ 24Hz and 720p @ 60Hz and Checkerboard in 1080p @ 60Hz. However, there may be some 3D sources that are not compatible with Mitsubishi TVs. In all cases: (1) 3D sources must connect to the TVs using HDMI inputs; and (2) Active Shutter 3D glasses with their own external matching synchronization emitter connected to the rear of the TV, DLP Link Active Shutter 3D glasses which do not require a synchronization emitter, or Active Shutter glasses compatible with the internal IR emitter in some TV models are required to view 3D content. External synchronization emitters must be compatible with VESA Stereo connector standards. Please refer to our web site www.mitsubishi-tv.com for the most current information.

Mitsubishi does not design, manufacture or sell matching bases for the 75" LaserVue TV (model L75-A94). When selecting a stand, base, or other furniture to support the TV, please make sure it is designed with the appropriate dimensions for stability and to support the TV's weight plus the weight of any additional equipment you plan to store. If you are having trouble connecting your TV or accessing StreamTV internet media services contact Mitsubishi Customer Relations at 1-800-332-2119.
