Overview

The LT-37131 LCD Flat Panel HDTV combines slim, sleek flat panel styling together with the ultimate in picture performance. This 37" 1080p HDTV delivers over two million pixels, the highest high definition resolution available, producing razor sharp images. And High Contrast Picture creates a picture with deeper blacks and richer dark scene details by dynamically matching the brightness of the TV backlight to that of the on-screen image. Mitsubishi's all-new digital signal processing system includes Plush1080p® for precise de-interlacing and upconversion to 1080p, 4D Video Noise Reduction for smooth yet detailed images, and Tru1080p™ for processing the highest resolution HDTV signals in their native format.

This 37" HDTV includes two HDMI™ inputs, an IEEE 1394 interface, along with DVI-I and component inputs that provide connection to almost any HD component. ClearThought® Easy Connect makes set-up so easy by recognizing when a component is connected. The Mitsubishi LT-37131 offers unmatched versatility and comes on a remote controlled, motorized swivel base.
