

Ultimate LCD TV Performance meets European Design

This super slim and efficient integrated LCD TV will fit in spaces and environments where plasmas fear to tread

32 / 40" LCD TV & MONITOR

The European Sports Coupe' of LCDTVs. Performance, Fit and Finish that's incomparable

A complete High-Definition ready, flat panel Television in a 3.5" deep package; No need for bulky and expensive tethered external tuners or add-ons, this sleek beauty is not just a monitor, it is a completely integrated Television. Two built-in 181-channel tuner, high-powered 2 channel sound system and advanced features as V-Chip, Closed Caption, sleep and wake up timers, and a full compliment of AV inputs round out the package.

LTV-32A2 / 40A2 FEATURES

1280 X 768 PIXEL NATIVE RESOLUTION

Offers true native 720P HD resolution and W-XGA PC capability,

SUPERB SCALING AND VIDEO PERFORMANCE

DCDi™ and Pixelworks™ chipsets provide smooth scaling of all input signals, whether from HD or SD sources, provides crystal clear image quality without the artifacts and problems of other brands' industrial data display based products. Additionally all aspect ratios are available through preset modes and user optional manual adjustments.

OUTSTANDING BRIGHTNESS AND CONTRAST RATIOS AND LIGHTNING FAST RESPONSE TIMES

600:1 contrast ratio and 550cd/m2 brightness means dark scenes display as intended, not as grays, and bright scenes are truly bright, in almost any ambient lighting conditions. Use of the fastest responding LCD modules prevents the occurrence of motion artifacts and image lag seen in most other brands' LCD products.

OPERATION IN ENVIRONMENTAL EXTREMES

A home theater sized screen that goes where plasmas just can't! Unlike Plasma technology, this LCD TV has no operating altitude (atmospheric pressure) issues, along with a rugged all aluminum chassis design make it perfectly suited to Executive Aircorps Lodges and homes in high altitude locations in Colorado, California, etc...

EUROPEAN STYLE BRUSHED ALUMINUM CABINET

All aluminum construction not only offers a rich design element of outstanding fit and finish, is head and shoulders above other brand's plastic cabinets; it also offers a more rugged cabinet and better heat dissipation, while blending well with any interior.

CUSTOM INSTALLERS' DREAM

Custom installation features include RS-232 control input, discrete IR code set, video calibration service menu.
