## LCD FLAT PANEL DISPLAY

32" WXGA

P32LSA

# Value You Can See.

Today more than ever, visual communications require multifunctional, dependable, visually striking displays. Fortunately, Toshiba's P32LSA is more than up for the challenge. Its superior image quality shows off high-bright, high-contrast images viewable at any angle. High-resolution panel with digital and analog inputs while the most rigorous specifications are handled with ease. And installation is a snap with any UL-approved VESA standard wall or ceiling mount.

With Toshiba LCDs, image "Burn-In" and "Temporary Image Retention (TIR)" is a distant memory. Its high-speed, fast video response time of 12 ms delivers the performance you need for any application. And nobody beats Toshiba's comprehensive 3-year, full replacement warranty - that's value you can see.

**Key Features:**

- No Temporary Image Retention (TIR)
- DPMS (Display Power Management System)
- High-resolution, WXGA
- High-speed video response - 12 ms
- Can be used with any UL-approved VESA standard mount
- Wide off-axis viewing angles
- 60,000-hour back light life span
- 3-year full-replacement warranty \*(warranty may vary outside of the USA)

**The applications reach as far as the eye can see.**

Toshiba's 32" LCD display makes a huge impact in a wide range of environments.

**Airports and metro rail systems -**

Highly congested traffic areas call for displays with endurance. Toshiba LCDs are able to support the busiest airports and rail systems worldwide. Even at a great distance or angle, travelers can find the information they need to keep moving.

**Finance -** The financial world doesn't slow down for glitches. Thousands of business people have found the responsiveness and graphic clarity of the P32LSA to be ideal for hectic workdays.

**Retail -** In this highly aggressive industry, sellers need displays that demand attention, highlight merchandise and stand apart from the competition. Toshiba's 32" LCD fits the bill and can easily be incorporated into any retail setting.

**Food service -** As menu boards, these LCDs allow for quick, automatic, multi-imaged signage changes. The crisp, customer-friendly graphics are easy to read and create an inviting atmosphere.
