

Cineon™ CP42HA High-Definition Plasma Display

A brilliant 42-inch plasma TV.

Delivering an amazing 1300 cd/m² brightness and 10,000:1 contrast ratio, the Cineon™ CP42HA produces stunning images on its large 42" High Definition screen. State-of-the-art video processing includes a 3D digital comb filter, edge smoothing technology, and native progressive scanning at 720p to ensure sharp, detailed images.

With more than 20 years of experience in digital color imaging, Microtek optimized the Cineon CP42HA plasma display to deliver brilliant color, outstanding shadow and highlight detail, and perfect gray balance. Each unit is calibrated at the factory so that you can immediately enjoy the extraordinary image quality.

The detachable stereo speakers let you customize the appearance and functionality of your Cineon CP42HA display to fit your needs. Plus, with a 60,000-hour panel life, you'll be enjoying the visual opulence of the Cineon CP42HA for many years to come.

- High-gloss, rich-black case
