

d:6332M

available 10/2006, 63" plasma!

Everybody wants one. Very few will get one. Yes, we're talking about a 63" plasma TV, a remarkable achievement in flat screen technology. This is no ordinary big plasma display. While others remove quality and engineering from their products in an effort to reduce cost, we build our product as good as it can be. From its billet air craft aluminum front bezel to it's stamped steel chassis, and one of the thinnest profiles in the industry, this 63" is absolutely breathtaking, and our price will amaze you more. At byd:sign we make the impossible dream in HD, affordable.
