

# HL-T6756W

67" Widescreen DLP® HDTV with 1080p Resolution

With more screen and less frame – a piano black, 0.9"-thin bezel – Samsung's 67" Widescreen DLP® HDTV fits where others won't™. This lightweight design delivers the ultimate high-definition experience in Full HD (1920 x 1080p) resolution. You'll enjoy smooth, film-like images that burst into life, and whisper-quiet operation. A contrast ratio of up to 10,000:1 captures blacker blacks and crisper whites. Game Mode delivers precise, razor sharp picture without jagged images, making the energy-efficient HL-T6756W ideal for sports, fast-action video and games. And with two HDMI™ ports and inputs for your audio and video devices, you'll enjoy full connectivity.

## TV/Video

- DLP® HDTV by Samsung
- Slim bezel (0.9") & gloss black finish – fits where others won't™
- Samsung Cinema Smooth™ 1080p light engine:
  - Full HD 1920 x 1080p digital format converter for all inputs
  - Up to 10,000:1 contrast ratio with outstanding colors and deep black levels
  - Single-panel design—crystal-clear picture without any possibility of convergence errors
  - Smooth, film-like image and ultra-quiet operation
- Analog and full digital NTSC/ATSC Tuners with Clear QAM (digital cable)\*
- Energy Star® Compliant (0.8 Watt standby)
- Hidden speaker system (DACs™)
- Game Mode enhances game console performance

## Audio

- 10w x 2
- DNSe sound enhancement

## Connections

- 2 HDMI inputs (High Definition Multimedia Interface) with 480p/720i/1080p/1080i input support
- 2-component video inputs (480i/480p/720p/1080i/1080p)
- 2 S-video inputs
- 2 A/V composite inputs
- PC (RGB) input with 1080p Input Support

OFFICIAL HDTV OF THE NFL

\* limited reception varies by cable operator.

All on screen images are simulated pictures. DLP® is a trademark of Texas Instruments.

## HL-T6756W 67" Widescreen DLP® HDTV with 1080p Resolution

### Integrated HDTV Tuner

with the addition of a suitable UHF/VHF antenna delivers the world of free off-air DTV and HDTV local broadcast channels. An additional QAM tuner decodes unscrambled digital cable signals.

### Cinema Smooth™ Light Engine

Samsung is the worldwide leader in creating light engines that harness Digital Light Processing technology. Samsung's Cinema Smooth light engine brings together the right optics, electronic circuitry and replaceable light source to create a brilliant picture that's more lifelike and much closer to film. Now in its sixth generation, Samsung's Cinema Smooth light engine delivers crisp, 1080p High Definition resolution with high contrast and brightness, defined edges and sharp detail.

### Cinema Smooth 1080p Light Engine

Samsung's Cinema Smooth 1080p light engine is the culmination of years of industry-leading research and development. It releases the maximum power of the new generation of DMD microdisplays for the most film-like picture. It creates an image with no visible pixel structure and accurate shading and better low-light detail.

### Next Generation DLP Chips from Texas Instruments

Samsung employs a Texas Instruments DLP chip that is comprised of millions of microscopic mirrors. The DLP chip is faster than any other HDTV technology, with the mirrors switching on & off 15,000 times a second to deliver a razor-sharp picture for fast moving images. When combined with Samsung's new Cinema Smooth light engine, the result is a crisp, bright picture with deep, rich colors that's closer to film.

### Faster 5 Segment Color Wheel for High Contrast and Brightness

Samsung's 2.2" color wheel spins at 14,400 rpm for smooth fast-motion video, and has five color segments for more accurate colors. Comprised of five colors, Red, Green, and Blue, plus Cyan and Yellow, it achieves film-like transitions and eliminates the pixel breakup found in slower color wheel designs and slower-switching LCD microdisplays. The Cinema Smooth™ light engine uses a whisper quiet air bearing design.

## DNle™

### Samsung's DNle™ – Digital Natural Image Engine

Samsung's exclusive Digital Natural Image engine makes the sharpest and clearest images possible, regardless of the profile of input signals. Five image processors and a six-times density enhancer ensure the best picture from any source. Now in its sixth generation (since 2002), DNle guarantees the truest colors and highest contrast, while virtually eliminating digital artifacts.

### My Color Control

You can get the pink tones, the green of the grass and the blue of the sky just the way you like, without affecting the other colors on the screen. The three major colors can be adjusted to perfectly fit your taste. Self expression meets display perfection.

# HL-T6756W

## Cinema Mode

Samsung's Cinema Mode lets you see colors the way the director intended, by matching them more closely to production standards. This creates more accurate colors and natural skin tones when viewing Hollywood movies on your TV—the perfect setting when enjoying movies with the lights off.

Progressive

## Cinema Smooth™ Film Mode 3:2 Pull Down

Powered by Samsung's Cinema Smooth technology, 3:2 Pull Down corrects for the artificial frames created when films are converted to DVDs. The result is a clearer image without the subtle motion artifacts caused by 24-to-30 frames per second video conversion.

4:3

16:9 wide

Zoom 1

Zoom 2

## Picture Format Size Adjustment

Enjoy all your 4:3 aspect-ratio programming in smooth, wide-screen without black bars. Four pre-set aspect ratio modes—Normal, Wide, Zoom 1 and Zoom 2—stretch your image to fill the screen naturally.

## Energy Efficient

Samsung DLP TVs are more energy efficient than many flat panel TVs, resulting in significant utility savings over the life of the TV.

## Color Temperature Adjustments

Cool1, Cool2, Normal, Warm1, Warm2 selectable with on-screen display.

## 3D Comb Filter

dramatically reduces edge image artifacts while improving transition detail.

## Previous Channel

returns to the previously viewed channel at the push of a button.

## Game Mode

enhances dark areas, sharpens the picture, speeds up the image processing response and enhances the sounds of your games. Picture and sound quality optimized for the special needs of gaming systems at the touch of a button.

## Closed Caption

displays dialog that can be read along with encoded broadcast TV programs and pre-recorded videos.

## Non Volatile Memory

preserves audio, video and menu settings during power outages.

## Auto Volume Leveler

keeps audio volume consistent during channel changing to minimize static sound bursts.

## Discrete IR Codes

This set is equipped with discrete IR codes for use with an optional macro/programmable remote (see owners manual for details).

## Universal Remote Control

permits control of the TV, DVD, VCR and a Tuner/Receiver.

## HDMI (High-Definition Multimedia Interface)

addresses both pure digital audio and video performance and simplifies connections from the new generation set-top boxes, HD game consoles, HD Blu-ray™ and DVD players by reducing cable connections to one cable and plug.

## DTV and DVD Compatible Connect

your DVD and DTV sources with two smart component video (Y/Pb/Pr) inputs that accept 480p/720p/1080i/1080p signals.

## PC

A Samsung HDTV using DLP technology can also function as a high-quality XGA PC monitor with 1080p compatibility.

# HL-T6756W

67" Widescreen DLP® HDTV with 1080p Resolution

## Features

V-Chip<sup>1</sup> enables parental control for channel and program blocking of TV programs that incorporate the rating code signal.

## Specifications

### DISPLAY PERFORMANCE

Video display rate: 120 Hz

Response time: 16 micro seconds

### VIDEO

Display device: Single digital micro mirror device

### Pixel count:

1920 horizontal x 1080 vertical

Color wheel: 55 mm/5 segment

Resolution: 1080p

Contrast ratio: 10,000:1

Channel coverage: VHF 2-13, UHF 14-69, CATV 1-125 (up to 181 pre-selected channels), ATSC 1-69

### AUDIO

Output power: 10Wx2

Speakers: 2

MTS stereo

DNSe sound enhancement

Hidden speaker system (DACST<sup>TM</sup>)

1080p input support

### POWER

Voltage, Line frequency: 100-120V 60Hz

Power consumption: 200 Watts

Standby power consumption: 0.8 Watt

## Connections

### ANALOG VIDEO

AV: 2

S-Video input: 2

Component video input (Y/Pb/Pr): 2

PC (RGB) input: 1

HDMI: 2

## Quality

Warranty: 1 year parts and labor warranty, including lamp, with in-home service backed by Samsung toll-free support. 1-800-SAMSUNG

Energy Star<sup>®</sup> Compliant reduces energy consumption by up to 25% compared with standard TVs.<sup>2</sup>

## Accessories

### Universal Remote Control

## Net dimensions and weight (WxHxD)

TV (w/o foot): 62.4" x 44.2" x 17.8"

TV weight: 97.9 lbs.

TV (w/ foot): 62.4" x 44.2" x 19.1"

## Shipping dimensions and weight (WxHxD)

Carton: 67.9" x 48.9" x 23.4"
