

HP-S5033

50" High Definition Plasma TV with Integrated NTSC/ATSC Tuner

No matter how you look at it, Samsung's TrueWide HP-S5033 50" Plasma HDTV outperforms the competition. Even in a brightly lit room, images remain glare-free and crisp from every angle. Billions of colors and the 10,000:1 contrast ratio capture every nuance. And thanks to Samsung's new Gen-5 panel, the high picture quality will last long into the future. Rich surround sound completes this extraordinary entertainment experience.

TV/Video

- New Samsung Gen-5 panel
 - 10,000:1 contrast ratio
 - 1,300 cd/m² brightness
- 60,000 hour panel life* (27 years @ 6 hours/day)
- 1366(H) x 768(V) pixel resolution
- 16:9 widescreen aspect ratio
- NTSC/ATSC tuner built-in
- 13-bit processing (549 billion colors)
- Split screen & picture in picture
- Samsung DNIe™ (Digital Natural Image engine)
- 175°(H/V) viewing angle
- 3D Y/C digital comb filter
- Auto pixel shift (burn in resistance)

Audio

- 15-watt per channel built-in audio amplifier
- Built-in 1-way, 2-speaker system
- SRS TruSurround XT™

Rear A/V connections

- HDMI – High Definition Multimedia Interface
- 2 component video inputs (Y,Pb,Pr)
- S-video and composite video input
- PC (RGB) input

Side A/V connections

- S-video and composite video input
- Headphone jack

HP-S5033

50" High Definition Plasma TV with Integrated NTSC/ATSC Tuner

Specifications

1,000:1 contrast ratio/1300 cd/m² brightness. Two of the most important factors in overall picture quality, contrast and brightness, achieve new heights in these latest generation plasma panels. Together with the DNle proprietary circuitry, Samsung's new plasma TV's give the most stunning realistic picture quality ever from a flat panel set.

1366(H) x 768(V) pixel resolution presents video and text with outstanding clarity and resolution.

16:9 widescreen aspect ratio

549 Billion colors

60,000 hour panel life. Samsung's new 5th generation panels are made to last longer, so you can be confident that the high picture quality will endure.

Built-in HDTV tuner (ATSC)

13-bit processing (549 billion colors) When it comes to reproducing natural images, Samsung TVs are unrivaled. Thanks to the new 13-bit processing capability of DNle™, Samsung TVs can produce over 549 billion colors. Compare that to most competitors' 10-bit processing systems that produce just one billion colors. From the faint sunlight of dawn to the extreme spotlights of a fashion show, Samsung Plasma TVs provide vivid, life-like images that rival reality.

Split screen & picture-in-picture enables convenient simultaneous viewing of TV and video or PC sources.

DNle™ The Samsung Digital Natural Image engine. This exclusive Samsung technology dramatically improves the picture by enhancing the contrast, detail, white balance and reduces noise.

175° (H/V) viewing angle

3D Y/C digital comb filter constantly analyzes the three dimensions of picture height, picture width, and picture changes over-time, to dramatically reduce edge image artifacts while improving transition detail.

Auto pixel shift (burn in resistance)

15-watt per channel built-in audio amplifier. Powerful built-in amplifier to drive the integrated stereo speakers.

Built-in 1-way, 2-speaker system

SRS TruSurround XT™. TruSurround is a patented SRS technology that solves the problem of playing 5.1 multichannel content over two speakers. TruSurround delivers a compelling, virtual surround sound experience through the two-speaker internal playback system.

On/Off timer
