More color, for a more colorful image. Mitsubishi is taking color to a new level with x.v.Color™ support and Mitsubishi's Full Spectrum Color.™ x.v.Color™ is the new standard for HDTV and it enables 80% more color than standard HDTV! Mitsubishi's Full Spectrum Color™ results in 25% more color than standard LCD. Reds and yellows become more vivid and there are more available shades of green, cyan and blue resulting in a more vivid and more realistic image. Additional color features such as Color 4D Noise Reduction and PerfectColor™ and PerfectTint™ allow for advanced color processing and adjustment. The result is breathtaking realism with vivid, yet natural Color Without Compromise.

Larger screen, not larger spaces. The 244 Series 46" and 52" 1080p LCD Flat Panel HDTVs feature Mitsubishi's Plush1080p® processing for both unsurpassed detail in over two million pixels and for bright, vibrant images. Mitsubishi's Smooth120Hz™ minimizes motion blur especially in fast moving scenes. With its ultra thin frame, high quality hidden speakers and its ultra-compact design, the 244 Series lets you get a larger screen in less space than ever before! Go ahead and get into the action, immerse yourself.

Lots of connections, made easy. Mitsubishi leads the industry with three rear HDMI[™] 1.3 inputs and two rear component inputs for maximum HD connectivity. Both a side HDMI[™] 1.3 and side component video inputs allow you to easily connect your favorite HD game system. It is Digital Cable Ready with a CableCARD[™] slot and offers TV Guide Daily. Additionally, a USB input for up to 5 Mega Pixel pictures connect you to more of your life, while Mitsubishi's Easy Connect[™] along with NetCommand[®] makes set-up and operation so easy.
