- **Beautifully-designed 40" Screen Size** (measured diagonally) Super Narrow Bezel Design (under 1" wide) fits into spaces that formerly fit our 37" screen size.
- **High 10-Bit LCD Panel** - Toshiba's new 10-bit LCD provides 64 times more colors than a standard 8-bit panel, offering smoother transitions between color changes and during subtle shade transitions.
- Plus, the new **xvYCC** color standard provides 1.8 times more color than existing HDTV signals.
- **1080p Full HD Display** - With Full HD, there's no need to scale down a 1080 signal. With twice the pixel resolution of 720p HD models, Full HD creates the pinnacle in picture quality.
- **PixelPure 3G™ 14-Bit Internal Digital Video Processing** - Superior processing creates a superior picture, and REGZA LCD TVs with PixelPure 3G set themselves apart with incredibly deep, sharp, and natural images, for home theater beyond your imagination.
- **DynaLight™ Back-Light Control** creates superior black for deeper, more lifelike images, even in low light environments.
- **ColorBurst™ Wide Color Gamut CCFL** - ColorBurst expands the number of available colors and improves the color accuracy. This significantly improves both color purity and color saturation. The combination of ColorBurst and superior video processing creates colors that are more vibrant, more natural, and more enjoyable.
- **3 HDMI™ with CE-Link** allows simplified two-way control between the TV and compatible source devices,
- **SoundStrip 2™ Speaker System** for strong sound quality with lower chin height for the slimmest possible design.
