

CHRISTIE FP400

Lighter, Thinner, Brighter LCD Display

Uses

Retail signage

Entertainment signage

Smaller boardrooms

Classrooms

Transit facilities

Control rooms

Broadcast

Surveillance

When you need big, bright, stunning images in a limited space, the Christie FP400 is your answer.

The Christie FP400 flat panel LCD monitor is ideal for smaller corporate boardrooms and classrooms, retail and entertainment signage, transit facilities, control rooms and broadcast and surveillance applications.

The latest direct view LCD technology reduces heat and eliminates image retention and burn-in challenges often seen with plasma displays. The fan-less design offers silent, reliable operation. Low power consumption and long-life backlight reduce the cost of ownership and increase life expectancy.

A wide viewing angle of 170°, 470 cd/m² brightness, WXGA resolution and a 600:1 contrast ratio create crisp, bright images that are easy to view. At just 5.6" in depth, you can place the Christie FP400 anywhere.

The FP400 – a compact package delivering big, bright displays.

Christie FP400 (38-FP0002-01) Specifications

Ideal for dynamic retail displays or transit scheduling applications.

Discreet rear placement of connections and controls keep installations clean and secure.

Fan-less design offers a silent, reliable operation in high-use applications.

Direct View 40" Active Matrix TFT

WXGA, 1280 x 768 native

470 cd/m²

600:1

Less than 14ms
