Overview

The WD-Y57 and WD-Y65 1080p DLP® HDTVs feature Mitsubishi's 6-Color Light Engine and unique TurboLight150™ lamp system. These 57" and 65" HDTVs produce a big, bright and bold picture with unsurpassed detail and vibrant colors. At its heart is a Mitsubishi exclusive 6-Color 1080p Light Engine, the first to offer 6-color processing. This proprietary Mitsubishi digital light engine provides the perfect picture, whether watching broadcast, cable or satellite TV, as well as DVD or video games.

The picture of the WD-Y57 and WD-Y65 is further enhanced by an all-new digital signal processing system. Plush1080p® allows for precise deinterlacing and upconversion to 1080p. 4D Video Noise Reduction creates smooth yet detailed images. And Tru1080p™ processes the highest resolution HDTV signals in their native format.

These models are Digital Cable Ready HDTVs with a CableCARD™ slot, so digital cable channels can be viewed without a cable box and includes TV Guide On Screen® for its easy-to-use and subscription-free program guide. Both televisions have two HDMI™ inputs, two component video inputs and a DVI-I input for a digital PC connection. ClearThought® Easy Connect recognizes inputs as they are plugged in to simplify set up and NetCommand® with IR learning gives you control of your home theater system with a single remote.

Get the Perfect Picture Every Time

- 1080p DLP® Display
- Mitsubishi Exclusive 6-Color Light Engine
- TurboLight150™
- Plush1080p®
