

LN-S3252D

32" Wide HDTV

The unique and elegant white LN-S3252D is a 32" LCD that combines high style and high definition in equal measure. Perfect in the bedroom, a small living room or kids' playroom, its 4000:1 dynamic contrast ratio creates an intensely color-saturated picture in crisp focus. With the new S-PVA panel you not only get a wider viewing angle, but also a crisper picture.

And for gamers, the new, optimized game mode brings virtual reality to thrilling life. Combining hidden bottom speakers that produce deep, rich SRS TruSurround XT™ sound, with its full 178° viewing angle and swivel stand, the LN-S3252D delivers an unforgettable audio-visual experience no matter where it is placed. And two HDMI™ inputs allow connectivity to a wide range of digital devices, including digital satellite/cable boxes, camcorders, HD DVD upconverters and more, for unsurpassed versatility.

TV/Video

- HD-grade 1366(H) x 768(V) pixel resolution
- Widescreen aspect ratio
- 4000:1 dynamic contrast ratio
- 178°(H)/178°(V) viewing angle

LN-S3252D

32" Wide HDTV

Features

HD-grade 1366(H) x 768(V) pixel resolution: High resolution pixel density with built-in image scaler to handle inputs from a variety of digital* and analog audio/video sources.

Widescreen aspect ratio

4000:1 dynamic contrast ratio/500 cd/m² Samsung's wide viewing angle screen enables brighter whites, deeper blacks and every shade in between. It's higher contrast ratio provides an abundant palette of perfect colors.

178°(H)/178°(V) viewing angle improves viewing angle, contrast, and brightness to provide an even better picture.

DNle™ The Samsung Digital Natural Image engine. This exclusive technology dramatically improves the picture by enhancing the contrast, detail, white balance and reduces noise.

Game Mode enhances dark areas, sharpens the picture, speeds up the image processing response and enhances the sounds of your games. Picture and sound quality optimized for the special needs of gaming systems at the touch of a button.

MP3 connectivity allows you to easily connect and control your digital portable audio player through your TV.

Picture-in-picture (PIP) enables convenient simultaneous viewing of TV programs and video or PC sources.

Clock on/off timer: Perfect solution to wake up to your favorite morning show, or set a time to turn off the TV so it doesn't stay on all night. Can also be used when you're out.

Side A/V ports provides easy connections so you can connect a camcorder, digital camera, or any other digital device with no hassles.

3D Y/C digital comb filter constantly analyzes the three dimensions of picture height, picture width, and picture changes over-time, to dramatically reduce edge image artifacts while improving transition detail.

V-Chip System¹ allows blocking of rated TV and movie programs determined by the parent to contain objectionable content.

Auto channel search

Multi-lingual on-screen displays in English, Spanish or French.

Built-in digital tuner (ATSC) receives over-the-air (terrestrial) HD signal¹.

Progressive scan eliminates the flicker that you see on traditional, interlaced scanning TVs.

SRS TruSurround XT™ is a patented SRS technology that solves the problem of

playing 5.1 multichannel content over two speakers. TruSurround delivers a compelling, virtual surround sound experience through the two-speaker internal playback system.

Stereo broadcast reception: (MTS)

Variable sleep timer to turn the TV off in varying time intervals.

Auto power off

Freeze picture frame

Removable stand and VESA compatible hole mounts: If you want to install your TV on your wall, you can easily remove the stand and use a VESA compatible wall mount to safely and stylishly attach your TV to the wall.

Auto volume leveler keeps audio volume consistent during channel changing.

Response time: 8 ms response time minimizes blurring of moving video.

Connections
