

LN-S4092D

40" Wide HDTV

Samsung's 40" LN-S4092D enhances the master bedroom, living room or den with a startlingly realistic picture when it's on – and slim, elegant style when it's off. A 5000:1 dynamic contrast ratio and over one million pixels sharpen every picture; Samsung's Cold Cathode Fluorescent Lamp saturates it with the brilliance of 12.8 billion colors. Audio is equally impressive, with the full sound of Dual Acoustic Chamber System and SRS TruSurround XT™ emanating from hidden bottom speakers. Perfect for the master bedroom, living room or den, the wide, 178° viewing angle and convenient swivel stand let everyone enjoy the show. And the new, optimized game mode and ultra-fast 8ms response time take Xbox games to a new height of realism. Adding to its versatility, numerous digital devices, including digital satellite/cable boxes, HD DVD upconverters and more, can be added via two HDMI™ connections and side A/V inputs.

TV/Video

- HD-grade 1366(H) x 768(V) pixel resolution
- Widescreen aspect ratio
- 5000:1 dynamic contrast ratio
- S-PVA panel
- 178°(H)/178°(V) viewing angle
- CCFL – Cold Cathode Fluorescent Lamp (92% NTSC color gamut)
- 10-bit processor with 12.8 billion colors
- Built-in digital tuner (ATSC)
- Fast 8ms response time
- New optimized game mode
- Swivel stand

Audio

- "Hidden" bottom speakers with "D.A.C.S." (Dual Acoustic Chamber System)
- SRS TruSurround XT™
- Watts per channel: 10W x 2

Connections

- 2 HDMI – High Definition Multimedia Interface
- Component video input (Y,Pb,Pr) (480i/480p/720p/1080i)
- S-video and composite video inputs
- Side A/V inputs
- PC (RGB) input
- RS232C (portable audio compatibility)
- VESA® compatible

LN-S4092D

40" Wide HDTV

Features

HD-grade 1366(H) x 768(V) pixel resolution: High resolution pixel density with built-in image scaler to handle inputs from a variety of digital* and analog audio/video sources.

Widescreen aspect ratio

5000:1 dynamic contrast ratio/500 cd/m² Samsung's S-PVA screen enables brighter whites, deeper blacks and every shade in between. Its higher contrast ratio provides an abundant palette of perfect colors.

CCFL—Cold Cathode Fluorescent Lamp (92% NTSC color gamut) provides colors in your picture that were not available before.

178°(H)/178°(V) viewing angle improves viewing angle, contrast, and brightness to provide an even better picture.

DNie™ The Samsung Digital Natural Image engine. This exclusive technology dramatically improves the picture by enhancing the contrast, detail, white balance and reduces noise.

Game mode enhances dark areas, sharpens the picture, speeds up the image processing response and enhances the sounds of your games. Picture and sound quality optimized for the special needs of gaming systems at the touch of a button.

MP3 connectivity allows you to easily connect and control your digital portable audio player through your TV.

Side A/V ports provides easy connections so you can connect a camcorder, digital camera, or any other digital device with no hassles.

Picture-in-picture (PIP) enables convenient simultaneous viewing of TV programs and video or PC sources.

Clock on/off timer: Perfect solution to wake up to your favorite morning show, or set a time to turn off the TV so it doesn't stay on all night. Can also be used when you're out.

3D Y/C digital comb filter constantly analyzes the three dimensions of picture height, picture width, and picture changes over-time, to dramatically reduce edge image artifacts while improving transition detail.

V-Chip System¹ allows blocking of rated TV and movie programs determined by the parent to contain objectionable content.

Auto channel search

Multi-lingual on-screen displays in English, Spanish or French.

10-Bit processor with 12.8 billion colors

Built-in digital tuner (ATSC) receives over-the-air (terrestrial) HD signal¹.

Freeze picture frame

Swivel stand provides +/-15° of control to allow everyone in the room to watch TV without moving the TV.

Progressive scan eliminates the flicker that you see on traditional, interlaced scanning TVs.

Stereo broadcast reception: (MTS)

SRS TruSurround XT™ is a patented SRS technology that solves the problem of playing 5.1 multichannel content over two speakers. TruSurround delivers a compelling, virtual surround sound experience through the two-speaker internal playback system.

Variable sleep timer to turn the TV off in varying time intervals.

Auto power off

Removable stand and VESA compatible hole mounts: If you want to install your TV on your wall, you can easily remove the stand and use a VESA compatible wall mount to safely and stylishly attach your TV to the wall.

Auto volume leveler keeps audio volume consistent during channel changing.

Fast Response time: 8 ms response time minimizes blurring of moving video.

Connections

HDMI: 2

R/F input: 2 (air/cable)
