

Stunning style and picture quality at an exceptional value.

HP's enhanced definition plasma television blends cinema-style viewing experience with stylish design, all at an exceptional value.

You'll get exceptional image accuracy with bright, clear pictures that bring the finest details to life—thanks to our extra long life plasma panel and Visual Fidelity video processing. Delivering up to 8.58 billion colors and 2,048 shades of gradation, HP's plasma TV produces the detail and color that has made HP legendary.

Included is an essential array of digital and analog inputs, including an integrated digital tuner¹ and HDMI. Also included is an optical audio output for Dolby Digital 5.1 compatibility with home theater surround sound systems.

Perfect for nearly any décor, the panel features a subtle appearance with a classic piano black finish. Our innovative speaker design delivers powerful sound while being neatly concealed within the TV. A stylish tabletop swivel stand is included, and is also detachable for wall mounting.²

- HP Visual Fidelity delivers up to 8.58 billion colors and 2,048 shades of gradation to render nuance and detail from even the darkest scenes
- Ultra-long life panel—up to 60,000³ hours of operation
- 10% brighter panel from improved phosphors
- Advanced Color Filter suppresses the amount of external reflected light, delivering richer, deeper black tones while maintaining screen brightness
- 3D Color Enrichment System reproduces vibrant colors and natural skin tones
- Motion Adaptive Noise Reduction greatly reduces visual noise without reducing detail. HDMI port—enables digital video and audio through a single cable
- Innovative super-slim 26-watt 6-speaker solution with concealed TurboBass woofers.

¹ An antenna may be required for ATSC reception.

² Wall mounting hardware kit sold separately.

³ The life is determined as the time at which luminance is 50% compared to that of initial value at the typical lamp current on condition of continuous operation at 25±°C. 60,000 hours equates to more than twenty-three years at seven hours a day viewing, around the average daily TV viewing time per U.S. household.

Technical specifications

Video	
Resolution	852 x 480
Contrast Ratio	Up to 4000:1
Displayable Colors	Up to 8.58 bn colors
Shades of Gradation	2048 shades
Panel life	Up to 60,000 hours
Tuning
