SERIES **6** PLASMA TV

63" Widescreen Plasma HDTV with Full HD 1080p Resolution

(62.9" (truncated) actual diagonal screen size)

Specifications

Touch of Color™ design. Samsung's cutting-edge process infuses color into the black bezel resulting in a red accent that lines the bezel's top and bottom edges.

Ultra FilterBright™ anti-glare technology reduces glare and enhances the contrast ratio in the brightest rooms.

ACE Silhouette Editor™ (false contour reduction) delivers clear images without contour lines.

1,000,000:1 dynamic contrast ratio. Two of the most important factors in overall picture quality, contrast and brightness, achieve new heights in these latest generation plasma panels. Together with the DNle proprietary circuitry, Samsung's new plasma TV's give the most stunning realistic picture quality ever from a flat panel set.

1920 horizontal x 1080 vertical pixel resolution presents video and text with outstanding clarity and resolution.

175° (H/V) viewing angle presents video and text with outstanding clarity and resolution.

Anti Burn-in Technology

- Auto pixel shift (user programmable)
- Signal pattern processing function
- All White

Built-in HDTV tuner (ATSC/NTSC) with Clear QAM reception tunes unscrambled digital local cable channels

DNle™ The Samsung Digital Natural Image engine. This exclusive Samsung technology dramatically improves the picture by enhancing the contrast, detail, white balance and reduces noise.

15-watts per channel built-in audio amplifier. Powerful built-in amplifier to drive the integrated stereo speakers.

Direct down-firing speakers

SRS TruSurround XT™. TruSurround is a patented SRS technology that solves the problem of playing 5.1 multichannel content over two speakers. TruSurround delivers a compelling, virtual surround sound experience through the two-speaker internal playback system.

Natural true color. Samsung Plasma TV can display Natural True Color with 18 bit processing. And new algorithm adjusting color balance will let you enjoy the 'As-is color'.

WiseLink™ - plays MP3 and jpeg files through USB 2.0 connection.

InfoLink™ RSS feeds of customizable stock quotes, weather and brief news articles.

Entertainment Mode allows customized picture settings, optimized for different content (e.g., sports, movies, gaming).

Universal Anynet Plus (HDMI-CEC) allows peripheral devices such as a DVD player to be controlled by TV remote control.

V-Chip system¹ allows blocking of rated TV and movie programs determined by the parent to contain objectionable content.

Power saving (off/high/middle/low)

Trilingual on-screen displays in English, Spanish or French.
