

## Klegg XP Pro Digital Signage

Digital Signage with Integrated Windows XP PC

The Klegg XP Pro: Digital Signage made easy.™

The Klegg XP Pro line of digital signage alleviates the need for a PC to be linked to the display to control the digital content; content updates can be sent via the internet. Unlike any other solution Klegg Signage Displays can be fully controlled (Input, On\Off, Volume, Brightness) remotely through the Internet. Klegg digital signage displays also incorporate 802.11 Wi-Fi functionality.
